SUMMARY

Full Stack Developer with hands-on experience building scalable web applications using MERN stack technologies including React.js, Node.js, Express.js and MongoDB. Skilled in REST APIs, authentication systems, database design and responsive UI development with strong problem-solving and collaborative development experience.

EDUCATION

Ganpat University

Bachelor of Technology in Information Technology; CGPA: 8.75/10

2022 – 2026

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, PHP

Frontend: React.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Tools & Technologies: Git, GitHub, VS Code, Render, Vercel, Linux, Wireshark

Core Concepts: DBMS, MVC Architecture, Cryptography, SEO

EXPERIENCE

Full Stack Developer Intern

REAI INNOVATIONS PVT. LTD.

Dec 2025 – Apr 2026

Ahmedabad, Gujarat

- Developed and maintained scalable MERN stack applications improving application responsiveness and usability
- Built responsive React.js user interfaces ensuring seamless cross-device compatibility
- Designed and integrated RESTful APIs using Node.js and Express.js for core business functionalities
- Optimized MongoDB database schemas and queries to improve data retrieval performance
- Collaborated within Agile teams using Git workflows, pull requests and code reviews

PROJECTS

Developer TaskHub

developer-taskhub.onrender.com

MERN Stack / React.js, Node.js, Express.js, MongoDB, REST APIs

- Developed and deployed a full-stack developer collaboration platform enabling users to create, manage and showcase projects
- Implemented JWT-based authentication and authorization for secure user access and session management
- Designed scalable RESTful APIs and integrated MongoDB Atlas for efficient cloud database management
- Deployed the application on Render with optimized backend performance and responsive UI design

WanderLust - Travel Listing Platform

major-project-qeey.onrender.com

Node.js, Express.js, MongoDB, EJS, JavaScript

- Built a full-stack travel listing platform inspired by Airbnb using MVC architecture
- Implemented authentication, property listing management, image uploads and review features
- Developed CRUD operations, server-side validation, error handling and session management

Face Recognition Attendance System

Team Project

React.js, Node.js, MySQL, OpenCV

- Developed responsive React.js interfaces for automated face-recognition-based attendance management
- Collaborated in a team environment on frontend development and API integration
