Gandhinagar, Gujarat, India

EDUCATION

Ganpat University

Bachelor of Technology in Information Technology; CGPA: 8.65/10.0

2022 – 2026

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, PHP

Frontend: React.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Tools & Technologies: Git, GitHub, VS Code, Render, Linux, Wireshark

Core Concepts: DBMS, MVC Architecture, Cryptography, SEO

EXPERIENCE

Full Stack Developer Intern

Dec 2025 – Apr 2026

REAI INNOVATIONS PVT. LTD.

Ahmedabad, Gujarat

- Developed and maintained scalable MERN stack applications, improving performance and usability
- Built responsive React.js interfaces, enhancing cross device compatibility and user experience
- Designed and integrated RESTful APIs using Node.js and Express.js for core application features
- Optimized MongoDB schemas, improving data retrieval efficiency and application performance
- Implemented backend logic, authentication and data handling for real world use cases
- Collaborated using Git workflows, code reviews and Agile practices in a team environment

PROJECTS

Developer TaskHub

developer-taskhub.onrender.com

MERN Stack — React.js, Node.js, Express.js, MongoDB, REST APIs

- Architected and deployed a full stack platform enabling developers to create, showcase and manage projects, achieving 99% uptime
- Implemented JWT based authentication and authorization to ensure secure user sessions and data protection
- Designed and developed RESTful APIs using Express.js and integrated MongoDB Atlas for scalable data management
- Deployed and maintained the application on Render, ensuring reliability and availability

WanderLust - Travel Listing Platform

major-project-qeey.onrender.com

Full-Stack — Node.js, Express.js, MongoDB, EJS, JavaScript

- Developed Airbnb inspired platform using MVC architecture with user authentication, profiles and review system
- Built comprehensive CRUD operations for property listings with image upload and dynamic content rendering
- Implemented server side validation, error handling and session management for enhanced security and UX

Face Recognition Attendance System

Team Project

React.js, Node.js, MySQL, OpenCV

- Engineered responsive React.js frontend for face based attendance with real time dashboard and timetable modules
- Collaborated with backend team to integrate APIs for real time attendance processing

Doctor Appointment Booking System

Web Application

PHP, MySQL, HTML, CSS

- Built complete booking system with real time slot availability, appointment confirmation and patient management
- Designed normalized database schema in MySQL optimizing query performance for concurrent user access
